

Intermatic™ DT17 Heavy Duty Digital Timer Product Recall

Regardez cette page en [français](#).

Intermatic, Inc. has issued a voluntary recall of its DT17 timer, packaged as DT17C Heavy Duty Digital Timer and DT17C70 Heavy Duty Grounded Digital 7 Day Timer. The recalled timers could pose an electrical shock hazard. The brand name, model number ("DT17") and affected date codes of 40Z through 52Z or date codes ending in A, B, or C can be located on the bottom of the timer as shown below. If you have a timer with date codes 40Z through 52Z or date codes ending in A, B, or C, stop using it and contact Intermatic immediately.

Intermatic™ DT27 Heavy Duty Digital Timer and Time All™ Digital Lamp and Appliance Self-Adjusting Timer Product Recall

Intermatic, Inc. has issued a voluntary recall of its DT27 Timer, packaged as DT27C Heavy Duty Digital Timer and DT27CL (Lowe's only) Time All™ Digital Lamp and Appliance Self-Adjusting Timer. While there have been no incidents of damage and no reports of injury, products with manufacturing code 04B have been found to be manufactured in a way that could potentially cause them to result in electrical shock to a consumer under certain circumstances. A total of 8,500 units of date code 04B are being recalled. The timers are pictured below. ONLY TIMERS WITH DATE CODE 04B are affected by this recall.
