Halton Hills Hydro Update

Electricity/Distribution Rate Change

Under the Regulated Price Plan (RPP) effective May 1, 2006, consumers pay 5.8 cents per kilowatt hour (kWh) up to a certain threshold each month and 6.7 cents per kWh for electricity used per month over this amount. This amount is reflected on the "Electricity" line on consumers' bills.

The lower price threshold for residential consumers will be 600 kWh per month in the summer (May 1st to October 31st) and 1,000 kWh per month in the winter (November 1st to April 30th). Prices will be reviewed by the Ontario Energy Board (OEB) and may change every six months based on an updated forecast and any accumulated differences between the amount that consumers paid for electricity and the amount paid to generators in the previous price-setting period. About half the increase in RPP pricing results from the variance between the forecast price paid by consumers and the actual costs of supplying electricity over the last year. The remaining half of the RPP price increase is the forecast cost of supplying electricity to RPP consumers over the next year.

The price threshold for non-residential consumers stays at 750 kWh throughout the year.

SCHEDULE OF ELECTRICITY RATES

(Effective for electricity consumed after May 1, 2006)

Customer Class *(Standard Supply Customer)*	**Residential**	**General Service** *<50kW*	**General Service** *50kW to 999kW*	**General Service** *1,000kW to 4,999kW*	**Interval Metered**	**Sentinel Lights**
